The Hilti Metal Hit Anchors are manufactured in Temple, Pennsylvania. The Zamac alloy used to manufacture the anchor body is produced in Hudson Bay, Canada. The steel for the pin is produced in the US.

The Hilti Metal Hit anchors are manufactured from carbon steel and a zinc alloy and are recyclable. The post-consumer content of the steel pin is 25%. The pre-consumer recycled content of the steel pin is not known. The recycled content of the Zamac anchor body is not known.

The VOC content for Hilti Metal Hit anchors is 0 grams/liter.

Please feel free to contact me at (918) 872 3704 if you have questions.

Sincerely,

Jerry Metcalf MPH, CHMM Sr. Manager, Safety/Environmental Hilti Inc. 918 872 3704 jerry.metcalf@hilti.com

Rev. Date: 7/31/17

The manufacturing plant location on this certificate has been provided for LEEDS reporting purposes only. It should never be used for Country of Origin certification or a representation of compliance/non-compliance with Buy American or Buy America requirements, as those requirements differ.

The manufacturing plant location(s) identified on the certificate represent standard Hilti catalog products only. "Specially" produced non-catalog Hilti products may have differing manufacturing plant locations.
